new!

Junior Toilet

tray with low entrance

This open cat litter box is ideal for kittens, older cats and cats with joint problems.

It has a low entry, making it easier for less mobile cats to get in and out.

and dogs

ideal
for
toilet training

This open box is also ideal for toilet training puppies, as a toilet for small, old dogs or dogs with limited mobility, and for small dogs that can't go outside. If used for dogs, always use special dog litter.

Instructions for use

Fill the box with cat or dog litter box filler until the line.

You should remove lumps of litter and/or excrements every day with the litter scoop.

The sturdy tray is made of durable material. To ensure the litter tray lasts even longer, you should clean it with a mild detergent, water and a soft cloth.
